COXEY HAS GOT BACK.

The Commonweal Commander Again With His Army.

WELL PLEASED WITH HIS TRIP.

He Thinks the Railroads Will Reduce Rates to Washington on May 1.—A Camping Ground Secured.—Washington Authorities Fear Trouble.—Movements of the Various Armies.

FREDERICK, Md., April 25.—General Coxe returned to the commonweal army yesterday and was received with cheers on the very spot where stood the house of old Barbara Fritchie. Mr. Coxe was well pleased with the result of his New York expedition. He said that the trunk line roads had not yet decided whether or not they would give reduced rates to Washington on May 1. There was to be a special meeting of the trunk line managers, he said, and their decision would be telegraphed him.

In commenting on the manifesto of the district commissioners, Mr. Coxe said that it was just what might be expected under the circumstances, there was no need of any preparatory proclamations by the district authorities as to the order they were going to preserve and the whole thing was the same sort of bluster that had been made by Mayor Fleming of Frederick, when he declared that the commonweal should never parade in his town and then allowed the procession directly under the noses of 30 deputy sheriffs.

While in New York Mr. Coxe said he had been offered the use of Woody park, outside of Washington, as a camp ground for the army. This is one of the most beautiful of the suburban real estate divisions about Washington, with good roads, wood, grass, and close to Rock creek, and an abundant water supply. The offer was made by Mrs. H. P. Maggaman, one of the owners of the tract whom Mr. Coxe had met at Tattersalls during the horse sales. The offer has not yet been accepted, but a conference between Browne and Coxe on the subject will be held.

It was decided at a late meeting between Coxe and Browne to hold the commonweal in camp at the base ball park, where they are very well provided for, and move for Hyattsville on Thursday.

The commonweal army is growing, nearly 800 men marched out of Camp Daniel Boone yesterday. They were joined by stragglers along the road, and in Frederick they found another party of 35 men under Windy White, the old trumpeter discharged at Williamsport last week. White was taken back into the fold and the recruits were accepted and enrolled. The party of 35 will be sent around by the old route of Ridgeville, Damascus and Laytonsville, which was to have been traveled by the main body on their march.

Last night Browne and Coxe addressed a large meeting in Junior hall, deferring to the wish of Mayor Fleming that they should not hold a meeting on the street, as he had relented concerning his determination not to allow the army to come into town at all.

While camp will not be moved today its name will be changed, as is the custom every day. It will be Camp Lafayette.

GUARDING THE MONEY.

Treasury Officials Order a New Supply of Firearms.

WASHINGTON, April 25.—The treasury officials, while disclaiming any fears of trouble on account of the presence of the crowds incident to the coming of Coxe's army, have taken the precaution of adding 55 carbines and 20 revolvers to the treasury's supply of arms.

The normal strength of the war force of the treasury is 70 men, divided into two reliefs. In addition to two or three dozen revolvers, there has always been 35 carbines in the racks in the office of the captain of the watch, sufficient to supply one to each watchman on duty. It has been thought best, however, to increase the supply in view of the crowds of hangers-on of Coxe's army that are expected to arrive in the city during the coming week.

The captain of the treasury guards, a local military organization, composed entirely of clerks in the treasury department, has informed the captain of the watch force that, in case of trouble at any hour of the day or night, he could have every man in his command at the treasury building inside of 45 minutes. He stated that his men were well drilled in the use of arms and hence could do much more effective work than civilians. He asked to be notified if there was at any time any apprehension of trouble.

WASHINGTON HEADQUARTERS.

Preparations Being Made for the Arrival of the Commonweal Army.

WASHINGTON, April 25.—Washington headquarters of the commonweal of Christ in Rechabite hall were resplendent yesterday with the sheen of a gorgeous silken banner sent by the supporters in Kansas City. It is 15 feet long by 7 feet wide, and the red and white stripes of the United States flag were lost in the center of an immense blue field, with a dazzling sunburst surmounted by seven gilt stars bearing the letters of the word "Liberty."

The two most conspicuous personages about the place were the two Whites, W. D. of Commune C, Chicago, and R. J. of Commune F. Both of them are very intelligent men. W. D. White served under Senator Manderson in the war, has been an employee of the Westinghouse Electric Light company, and had three ribs and an arm broken in the cold storage warehouse in the Chicago exposition grounds. B. J. White is

prone to having open one or two wounds on his back.

Both will remain here to do mission-work until the army arrives. They denounce the Unknown for collecting money under false pretenses and assert that Coxe's men are orderly, law-abiding citizens from whom Washington has nothing to fear.

They believe that Glen Echo will be selected for the Washington camping place of the army, a spot on the edge of the city, where there was an unsuccessful attempt by real estate men two years ago to establish a Chataqua assembly, and which had been offered to the army by its proprietors.

An appeal for contributions of money and provisions from the public has been issued by the local committee, which includes among its members the wife of Representative John Davis of Kansas. ex-Representative Wise of Arizona and Rev. Alexander Kent, the pastor of an unattached church here.

One of the most prominent labor leaders of the city, M. F. Hobbs, whose name has been connected with Coxe's crusade, repudiates it. He says: "So far as I know, labor organizations intend to give no support to this movement. As citizens, they are interested in seeing that Coxe's men are not deprived of their rights, but if the visitors violate the laws they will receive no support from organized labor."

KELLY'S ARMY DIVIDED.

Colonel Speed Leading Part of Kelly's Former Followers.

ATLANTIC, Ia., April 25.—Kelly's industrial army reached Atlantic at 6 o'clock last night with Colonel Speed and his followers in the ranks. The day had been an eventful one, Speed having been deposed and a separation of the Sacramento and San Francisco divisions having been effected during the march with a narrowly averted internal war. Speed had refused to obey orders issued by Kelly, was promptly court-martialed and reduced to the ranks.

The Sacramento division at once declared that it would desert Kelly and follow Speed, and the temporary camp, just east of Butler, was soon a scene of wild disorder. About 300 declared for Speed, and the men argued their differences with much profanity and a liberal show of clubs and stones. A night was averted, however, by Kelly's coolness.

Before they reached Atlantic the Sacramento division elected Speed general and now the men declare they will follow none but Speed, and they denounce Kelly as having appropriated to his own use the army's funds and aver that they will obey his orders no longer. Speed has accepted the leadership, but says that he will march to Washington with Kelly, but not under his guidance. Henceforth, says Speed, there will be two armies absolutely distinct, but sharing provisions and glory.

Kelly hopes for a reconciliation. He said to an Associated Press representative that he can and will account publicly for all funds he has received, and denied that he has ever been given more than \$1,000. The two armies will remain in Atlantic until Thursday.

A Hundred Desert.

WALNUT, Ia., April 25.—Soon after Kelly's army left Walnut at least a hundred men left the ranks and started across the country in various directions. The long march ahead and the vanishing prospects of securing a train caused a rapid dissolving of the enthusiasm which has heretofore marked the progress of the army and the men quietly dropped out. Kelly disclaimed all knowledge of the wholesale desertion and asserted that he knew of but 10 or 12 men who had quit.

STOLE A TRAIN.

An Army Now Has the Right of Way Over the Northern Pacific.

ST. PAUL, April 25.—The Coxeites at Butte broke into the Northern Pacific roundhouse, seized an engine and train, manning them from their number, and started east at 40 miles an hour.

Sheriff Hazen of Council Bluffs is following the army with three deputies and claims that several crooks are in the ranks. Three Chicago detectives and three Pinkerton men are also on the trail and it is expected that wholesale arrests will be made at Des Moines.

The Northern Pacific officials in this city, from whom these facts have been learned, say there is nothing to stop them until near Livingston. Pinkerton men are also on the trail and it is expected that wholesale arrests will be made at Des Moines.

They Reach Livingston.

LIVINGSTON, Mon., April 25.—Sheriff Conrow received a dispatch from Helena attorneys for the Northern Pacific instructing him to arrest General Hogan on the charge of the larceny of a Northern Pacific train, and a warrant was sworn out by the company's local attorney.

The army was delayed several hours at Timberline, 14 miles west of Livingston, by a cave-in in the tunnel a short distance this side of Timberline, but they got through there and came here. Such trifles as running orders did not deter the Coxe brigade, and, from the time they left Butte until they reached Bozeman, the officials were kept in a fever of anxiety lest a collision should occur. The army numbered 475 men.

A subscription for their benefit was taken up here, and the money, meat and other provender collected was turned over to General Hogan upon their arrival. Superintendent Finn was asked whether the Coxe brigade would take the right of way to the end of the road, and laconically replied: "They have done it so far."

When the officials sent them word to look out for trains they replied: "If you don't want your trains hurt, keep them out of the way."

CAMPED IN FREIGHTCARS.

Frye's Army Detained at Terre Haute, Ind., by the Railroad Company.

TERRE HAUTE, April 25.—Frye's army intended to leave here for Brazil at 4 p. m. yesterday, 300 strong, but did not succeed in getting out of town and are camped out in the Vandalia yards in this city. They are squatted on top and inside of boxcars and refuse to move.

There was a hitch between the army and the railroad company and the train went off without them. They then took possession of the 7:30 p. m. freight train going east, and as they refused to get off, the train was run back and abandoned under orders of the trainmaster. Frye went on to Brazil ahead of the army on the passenger train before the trouble broke out. When his men will succeed in getting away is an enigma. They say they won't walk another step.

Quarreling Among Themselves.

BALTIMORE, April 25.—Captain Jones, Philadelphia division of the commonweal army, met with such a freezing reception at Elliott City last night that it is likely to go to pieces before it reaches the main body. They were not allowed to camp within the limits of the town and got to quarreling among themselves so that that Sheriff E. Flower and State's Attorney J. D. McGuire threatened them with the lockup. This made matters worse and a small riot was imminent when the sheriff and his deputies ordered them to quit the town. They could get nothing to eat, and were forced to leave. Secretary and Treasurer Clinton was accused of spending the money obtained in Baltimore for beer and getting too drunk to attend to business. Commissary Samuel Jackson was made leader in his place, but it is doubtful if he will be able to keep the crowd together.

They Did Not Parade.

OAKLAND, Cal., April 25.—The San Francisco and Oakland industrial armies yesterday proposed to parade in the rear of the Grand Army procession, but were notified by the grand marshal that he would use force if necessary to prevent it. Many of the industrialists were anxious to parade anyway and allow the whole army to be arrested, but better counsel prevailed. Later a committee from the industrial army and Federal labor union waited upon Governor Markham, who is in Oakland attending the Grand Army encampment, and presented a written request that he review the grand army of industrialists at any convenient hour during the day. The governor replied that he was busily engaged with other affairs and besides his time was at the disposal of the Grand Army.

One Contingent Meet With Disaster.

NEW YORK, April 25.—A contingent of Coxe's army met with disaster yesterday in Jersey City. More than 100 tired-looking men met in the Pennsylvania Railroad company's freight shed at West End and boarded a freight train that was to leave for the south at 6 a. m. The chief gateman, Lawrence, and his assistants waited until Coxe's followers had gone into the freight cars and then they locked the doors. A locomotive was attached to the train and soon had the carloads of tramps moving towards Jersey City. A wagonload of police awaited them, but before reaching the city limits the tramps managed to break open the cardoors and escaped. They scattered in all directions, and not one was arrested.

Decided Not to Go to Washington.

GUTHRIE, O. T., April 25.—Representatives of the several bands of the industrial army organized in this territory met here, and because of the refusal of the railway companies to grant them reduced rates, they decided not to go to Washington, but to hold meetings and have parades in every city in the territory on May 1.

A LAWYER'S DEATH BY VIOLENCE.

Congressman Bynum's Former Partner Found Lifeless in His Room.

INDIANAPOLIS, April 25.—Albert T. Beck, a well known lawyer of this city and the former law partner of Congressman Bynum, was found dead on the floor of his sleeping room yesterday morning. A shot was heard by the family about 3 o'clock, and when Mr. Beck failed to respond to a call at 7 o'clock his room was entered and his body lay partially dressed, with a bullet in the bowels.

The floor was covered with blood and the window off the porch was open. While murder has been suggested, his friends think it a case of suicide.

Investigation shows that he is deeply in debt, financially embarrassed and had been recently borrowing money freely. All the details of the case, as furnished by a thorough investigation of the room where the affair occurred, point to suicide. He was about 50 years old.

He was a man with a history in these parts. He was involved in the tally-sheet election cases years ago, but was entirely cleared. He has been attorney for the city and is well known in state politics. He and Bynum had quarreled some time ago, and were no longer partners.

The Columbia in Commission.

PHILADELPHIA, April 24.—The cruiser Columbia has been placed in commission. The ceremony of transferring the vessel from the builders to the United States government consisted of the mustering by the crew on the port, in full uniform, and the officers on the starboard side of the stern, with the marine guard in a position facing the flagstaff. Captain George W. Sumner, U. S. N., then came forward in full uniform and, after being saluted, read the order of the secretary of the navy, placing him in command. The crew then uncovered, the marine corps saluted, the buglers sounded "To the Colors" and the quartermaster flung the colors to the breeze. Captain Sumner made a short address, complimenting the builders and the craft. The Columbia will go to League Island navy yard to be a

THE STRIKE GROWING.

More Miners Join the Men Already Out.

AN IMPORTANT MOVEMENT.

Three Thousand Men in Pennsylvania Not Connected With the Miners' Union Resolve to Quit Work—Nothing New in the Other Districts—A State of Ill Feeling Existing Among the Indiana Miners.

PITTSBURGH, April 25.—At a meeting of coal miners held at Leechburg yesterday, delegates representing 3,000 men, who have not heretofore been connected with the National Miners' union, asked that they be organized and declared in favor of a strike. This will take out practically all the Pennsylvania railroad miners along the Kiskemintus river.

Three pits were not represented at yesterday's meeting and efforts will be made to bring these men into line. The strikers claim that this new move will tie up the West Pennsylvania railroad entirely within two or three days, and as the Pennsylvania main line from Altoona east depends for coal supply on these pits, the situation may become embarrassing for the whole Pennsylvania system east.

On the other hand, the operators say they have coal enough on sidings to keep them supplied as long as the strike may last.

Elsewhere in this district the situation remains unhangd, with both sides watchful at every point. The coke region is coming into line with the strikers, and the men claim that the whole region will soon be out.

WORKING MINERS ASSAULTED.

Bituminous Men Angry With the Block Men For Not Coming Out.

BRAZIL, Ind., April 25.—Feeling on the part of the bituminous miners toward the block men is running at high tide, and at places manifested in overt acts of reproach and retaliation over the decision of the block men not to come out last Saturday.

As the block men at the mines out on Otter creek who live here, were returning home from work on the Chicago and Indiana Coal local train, the train was assaulted by the striking bituminous men at the Coal Bluff crossing of the Indianapolis and St. Louis road, who hurled stones, tin cans and clubs at them, denouncing them vigorously as "scabs" and "blacklegs." In the morning, as they went out to work, their train was again assaulted in the same way, the bituminous men's wives joining them in the rabble.

All Out in Illinois.

DANVILLE, Ills., April 25.—The miners of the various country and strip banks have decided to join the strike. Nearly 3,000 miners near Danville field are now out. The last coal train went over to Chicago and Eastern Illinois Tuesday night. The miners at Tilton, near here, will not permit the Wabash engines to coal there. This cuts off the coal of the Wabash road for three divisions.

STRIKERS ATTACKED.

A Small Sized Riot Occurs in Cleveland Over Labor Troubles.

CLEVELAND, April 25.—For two weeks the strike at the Standard foundry has been maintained with a small corps of men working and sleeping inside the buildings and a guard of the strikers watching for them outside. Late yesterday afternoon three of the workmen left the foundry to make purchases and were surrounded and jeered at by the strikers.

One of the three, John Dombrowski, drew his revolver and shot into the ground. The strikers rushed upon them and the police arrested Dombrowski to save him. The other two escaped. Later Dombrowski was bailed by Foreman Heigh of the foundry, and they were going back to the works, when the strikers attacked them with stones. Both men were rescued by the police, with their heads badly cut.

WAR ON FOREIGNERS.

Unemployed Workmen Compel Italians to Quit Work.

AKRON, O., April 25.—Akron's unemployed workmen have declared war upon foreigners and declare that they will not allow that class of labor to work upon the street improvements. About 100 Italians employed on paving and sewer contracts were set upon by a mob of 400 or 500 men yesterday afternoon and driven from their work.

The timely arrival of Mayor Walters was the only thing that prevented violence. Part of the Italians were put to work unloading cars, but the mob followed them up and drove them off. The contractors declare that they will employ the Italians, and trouble is feared.

The Great Northern Strike.

ST. PAUL, April 25.—The general conference of the Great Northern men concluded their meeting, but will give out nothing as to the decision reached. They say they have decided what to do, that they are unanimous and they will announce their intentions after they have communicated with President Hill.

Quarreled With His Wife.

LEBANON, Ind., April 25.—Ed Workman quarreled with his wife yesterday. He forced his wife to give him some money and he started from the house. His wife followed him, when he turned and fired three shots at her, all taking effect. One bullet entered her neck and the doctor says she is mortally wounded. Workman supposed he had killed his wife and fired two shots into his own head, but he will recover. He is the son of a Methodist preacher.

GASOLINE EXPLOSION.

Two Children Killed, Two Adults Fatally Injured and Another Badly Burned.

ST. LOUIS, April 25.—A terrible explosion caused by gasoline took place at the home of Casimir Nigg, one mile below Carondelet, yesterday afternoon, in which two children were killed, two adults fatally injured and one seriously burned.

The dead are: Leonora Nigg, aged 2 years, burned to a crisp. Rosa Nigg, aged 7 years. Those fatally injured are: Caroline Vogel, aged 70 years. Casimir Nigg, aged 45 years, severely burned.

Mrs. Caroline Nigg. The gasoline can broke open while being carried through the summer kitchen, and becoming ignited the vapor caused an explosion which shook houses for some distance around. Nigg's house was burned and his two children perished in the flames before they could be saved. Casimir Nigg, and his mother-in-law, Mrs. Vogel, were fatally injured while trying to rescue the little one.

WALTER WELLMAN HEARD FROM. His Expedition Leaves Norway For the Island of Spitzbergen.

ALESUND, Norway, April 25.—The American North Polar expedition, under the command of Walter Wellman, sailed yesterday for the Island of Spitzbergen on the steamer Ragnvald. Jarl, which was chartered for the purpose of the expedition. Experts here pronounce the steamer to be the best ice boat belonging in Norway.

The aluminum boats that the expedition carries were greatly admired here for their beauty, strength and lightness. As the Ragnvald Jarl left the quay on her voyage to the far north, the stars and stripes were hoisted at the foremast-head and salutes were fired.

All the shipping in the harbor was decorated with flags in honor of the Arctic explorers. A large fleet of small boats escorted the steamer out of the harbor.

Prior to her departure a large number of cable dispatches expressing well wishes for the success of the expedition were received from the United States.

CHASED THE CASHIER.

The Failure to Open a Bank Almost Causes a Riot.

ENID, O. T., April 25.—The Merchants' bank of this place did not open yesterday morning and all kinds of excited stories were at once set afloat. A rush was made for the bank, but it was barred. About 50 men made a race for North Enid to catch the train before it went south. When they arrived the train had gone with Cashier Charles Bright.

The failure is about \$20,000 and the merchants are principally the losers. The depositors made threats on the president, Ed L. Dunn of El Reno, but nothing has been done. I. G. Conkling of this place has been appointed receiver and the affairs of the bank are now in his hands.

FISHERMEN IMPERILED.

The Southern Coast of Ireland Swept by a Storm.

DUBLIN, April 25.—A terrific gale prevailed yesterday over the southern coast of Ireland. The storm was particularly severe in the Skibbereen district. There was a large fleet of Scotch, English and Irish fishingboats off the coast when the gale set in.

Some of them made for ports of refuge, while others remained thinking they could outride the gale. It is feared that many of the latter have been wrecked. Scores of them are missing, and much wreckage has been washed ashore. Reports from various parts of the south coast show that great damage was done on land.

Historic Piece of Furniture.

NEW YORK, April 25.—An old-fashioned leather-covered, horsehair sofa, and a half dozen chairs to match, are the most interesting articles to be included in the sale of furniture of the International hotel, which will take place next Friday. They formed part of the furnishings of the room in the Astor House, which was the New York headquarters of Henry Clay and Daniel Webster while those statesmen were in the zenith of their fame. On that sofa the friends were accustomed to sit by the hour and discuss the events and the politics of the day.

FRANK HATTON PARALYZED.

Sudden and Alarming Illness of the Famous Editor.

WASHINGTON, April 25.—Frank Hatton, one of the proprietors and editors of the Washington Post, was stricken with paralysis yesterday afternoon while at work at his desk. A physician was immediately called, but it was nearly half an hour before he arrived. In the meantime the sufferer had lost consciousness.

The doctor said that a clot of blood had formed on the brain and that the case was a very serious one. An ambulance from the Emergency hospital was called and Mr. Hatton was taken to his home on Hillier place.

The paralysis is not fatal as was at first feared, but it is confined to the right side. He appears to be wholly conscious of what transpires about him, but is unable to articulate. Though the physicians hold out more hope, they still consider his condition critical.

Mr. Hatton with Beriah Wilkins owns The Post. He was postmaster general under Arthur.

REPUBLICAN editors should not be so outspoken in denouncing Coxe and his cranks. The G. O. P.'s protection pets were first, we believe, to suggest this "industrial army" business. They advised and encouraged a lot of workmen to go before Congress and protest against a revision of the tariff.

We think it will turn out that too much space has been given in the newspapers to the performances of the several detachments of what is absurdly called "Coxey's Army."—Cincinnati Enquirer.

We read a great many papers, and we have yet to find one that has given as much space to this "absurdly called" "Coxey's Army" as the Enquirer.

A FEW hundred workmen went over from Philadelphia to Washington the past week to protest against a revision of the tariff. The millions who favor tariff reform will not be found tramping towards the National Capital. They have chosen Representatives to attend to the business, and will remain at home looking after their every-day affairs.

DANVILLE Advocate: "The weekly shoot of the Danville Gun Club was held Friday. Dr. H. M. Marsh repeated his work of the previous week and again led the party by a safe margin. The wind was blowing almost a gale and shooting was done under difficulties. In the team shoots at ten birds, Doctor Marsh's side beat Captain Phillips' party by a score of 32 to 25."

HERE'S something to the point. The Baltimore Sun says: "The logic of the Coxe programme is clear enough, from the McKinley standpoint. If the great manufacturing corporations shall have Congress make markets for their goods and fix prices and profits for them, why shall not the individual citizen have Congress make a market for his labor and fix his employment and wages for him? Is there any reason why 2,000,000 persons employed in factories shall be provided for by the Government at the general expenses and all the rest of our working people be left to shift for themselves? Have the coal and iron and lumber lords, already enormously rich, any better right to be taken care of by the tariffs than Coxe's crowd of more modest mendicants, who, really 'hard up,' have to be provided for by special appropriations for road building?" But Coxe and the Republicans are all wrong. "Equal rights to all, special privileges to none," is the only safe motto.

NO ONE excels President Cleveland in the presentation of general principles in impressive language and statesmanlike spirit, is the opinion of the Courier-Journal. His letter to the President of the National Association of Democratic Clubs is the latest proof of this. He warns Democrats of the duty of laboring to save the party, "in this time of its power and responsibility, from the degradation and disgrace of a failure to redeem the pledges upon which our fellow countrymen intrusted us with the control of their Government," adding:

All who are charged, on behalf of the Democratic party, with the redemption of these pledges should now be impressively reminded, that as we won our way to victory under the banner of Tariff Reform, so our insistence upon that principle is the condition of our retention of the people's trust; and that fealty to party organization demands the subordination of individual advantages and wishes, and the putting aside of petty and ignoble jealousies and bickerings, when party principles and party integrity and party existence are at stake.

These are timely words. But there would be no occasion for them were it not so apparent that a few alleged Democratic Senators seem bent on betraying their party.

ALWAYS ON TIME.

Seventeen Year Locusts Never Break an Engagement and May Be Expected This Year.

"Whatever may be said against the seventeen-year locust he never breaks an engagement," says the Louisville Commercial. "Promptly upon the seventeenth anniversary of his last visit he arrives with his entire troupe and opens up for business. This year he is to be here again, so the entomologists say, and the woods will resound with his harsh clamor. The advance guard of his army may be expected during the last days of May. It will be in full force about the middle of June and will gradually diminish toward the middle of the following month."

"No alarm need be occasioned," adds the Commercial, "by the coming of these rare visitors. The injury that they cause is mainly confined to their slitting the smaller twigs of trees in rows of borings of several inches in extent. The slits are placed at near intervals, and are covered with pencils of fine turn-up fibers, which serve as a covering or protection to the eggs, from ten to twenty being deposited beneath them. The harm to our fruit trees seldom amounts to more than a moderate shortening-in of the branches. It nurseries and in young orchards trees are occasionally killed by the attack."

"In the train of the locusts will come swarms of feathered hunters who will find in them a dainty edible and make their lives one merry succession of aerial twistings and turnings. Kingbirds, bluejays, fly catchers, and even the smaller thrushes and the smaller hawks, forsaking all else, will cleave unto the unfortunate harvest fly and grow fat upon his remains. If he grows weary in attempting to outstrip his feathered enemies in flight, and seeks refuge beneath a sheltering branch, he falls a prey to the vigilant squirrel or chipmunk, who finds him a toothsome morsel. Under any tree in the still, sunny days of the summer months you may find little heaps of yellow-ribbed gauze wings, testifying to the tragedy of the cicadas who escaped the attacks of feathered foes only to fall victims to their furred enemy of the rodent species."

"One man will there be who will rejoice at the advent of the seventeen-year harvest fly, and that is the fisherman. When all other baits fail, the larva of the seventeen-year locust will tempt the warriest fish to the hook. It is not the full-fledged insect, however, that avails here, but the larva at the roots of trees, getting ready to emerge from his sixteen years of underground existence and burst into the glory of gauzy wings and a more or less musical whirr. Trout, black bass, rock bass, perch, pickerel, and even bullheads will turn aside in disdain from fly, minnow, worm or crawfish and eagerly grab at the larva of the locust."

SENATOR WASHBURN delivered, or rather read, a speech Monday on the Wilson bill, and from the way the Cincinnati Enquirer and some other Republican papers carried on over it, one would have concluded that the Minnesota statesman fairly electrified his audience. The fact, however, is that part of the time Washburn was reading his piece there were only three Senators present. And yet the Republicans insist on discussing the tariff. This talking to empty seats is a farce, and the Democratic Senators should put an end to it. Pass the bill and be done with it. That's what the people demand.

THE C. AND O.'S NEW TRAIN.

It Passed East Tuesday Afternoon on a Trial Trip—Elegant Throughout.

The C. and O.'s elegant new train that will be put on regularly Sunday, May 13th, when the summer schedule goes into effect, passed East Tuesday afternoon.

The run yesterday afternoon was in the nature of a trial trip to see whether the train could get over the rails in the time required by the new schedule. All doubt on this point was settled.

The train pulled out of Covington at 12:30 p. m., and it was exactly 2 p. m. when it reached the Maysville depot. She was right up to the proposed new schedule, and had to "kill time" on some parts of the road, too. Part of the distance was covered at a speed of fifty-eight miles an hour. The probability is that the time will be lessened still more as the train had no trouble in keeping up to the schedule that had been mapped out.

The trip yesterday was to extend only to Hinton. Conductor George Calkins was in charge, with Engineer Geo. Bradford holding the throttle-lever.

The following were on board: General Manager Geo. W. Stevens, Mr. George Ingalls, son of President Ingalls, Assistant General Passenger Agent C. B. Ryan, J. M. Gill, Superintendent Western Division, Geo. W. Lewis, Assistant Superintendent Cincinnati Division, J. W. Haynes, Train Master, Cincinnati Division, U. L. Truitt, Traveling Passenger Agent, Mr. Belton, Road Foreman of Engines, R. H. Myrick, Superintendent Dining Car Service, and Captain E. W. Fitzgerald, of this city.

The new train will be made up of one baggage car, one combination car, two day coaches, and one parlor and observation coach. It will be vestibuled throughout and will be one of the finest and fastest in the country. No express or mail will be handled by this train.

Excursion to Bellevue and Cincinnati.

On account of the dedication of St. Anthony's Church in Bellevue, Ky., May 6th, the C. and O. will run a special train leaving Huntington at 4:15 a. m. and stopping at all stations. This is a popular priced excursion and the occasion a most attractive one.

The excursion will leave Cincinnati on the return trip at 6:45 p. m.

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

Farm For Sale.

I offer for sale privately my farm of 150 acres in Fern Leaf precinct. It is splendidly improved, well watered, in high state of cultivation and in a good neighborhood. Every acre is tillable and good tobacco land. Convenient to markets, schools and churches. Apply to Sallee & Sallee, attorneys, Maysville, Ky.

THOS. J. CHENOWETH, P. M.

For the Farmer.

In an editorial in the Southern States, based on recent census reports, it is shown that the increase from 1880 to 1890 in the value of farm assets was at the rate of 37 per cent. for the South, and 30 per cent. for the rest of the country. The South, having less than one-fourth as much invested in agriculture as the rest of the country, produced in 1890 nearly half as much in the value of its product as the rest of the country. Of the increase in the value of farm products from 1880 to 1890 in the United States, 43 per cent. of the whole was in the South.

Dr. Ed. Ayer, now a resident of Owensboro, says that he cleared in 1892, off of two acres of tomatoes, near Lewisport, \$180. This was exclusive of ground rent, preparation and the expense of carrying them quite a little distance, and besides he says that more than one-third of his crop rotted on his hands. He further states that with the proper kind of ground, within four miles of the city of Owensboro, he could make at least \$150 per acre raising tomatoes at the price paid by the canning factory, which is 20 cents per bushel.

THE relative cost of the coal oil, Pintsch gas and Silvey storage battery incandescent electric light for the year 1893 on the C. and O., after three years of constant use, is shown by the report of Chief Electrician W. S. Greene, just published, to be as follows: Electric light costs \$17.73 per year per lamp; oil lights cost \$24.12 per year per lamp, and Pintsch gas light costs \$29.42 per year per gas burner or tip. The relative candle power of each light is as follows: Oil 10 candle power, gas 8 candle power, and electric light 16 candle power, showing that electric light by storage batteries cost 52 per cent. less than oil and 69 per cent. less than gas light of the same candle power.

TO WED IN ST. LOUIS.

Mr. James Shackelford and Mrs. Nannie Higginbotham Will be Married This Evening.

The marriage of Mr. James Shackelford and Mrs. Nannie Higginbotham, of this city, will be solemnized this evening in St. Louis where the groom is visiting relatives. The bride, with her daughter, Miss Alice Higginbotham, has been spending the winter in Southern California.

Mr. Shackelford is a member of the firm of Myall & Shackelford, carriage manufacturers and undertakers, and has been identified with Maysville's business circles for several years.

Mrs. Higginbotham formerly resided in Cincinnati, but has been making Maysville her home of late years. She is a sister of Mrs. George Duckworth, whose husband is a prominent distiller of the Queen City.

The couple are expected home Friday evening.

MISS DOLLIE ROSE, the Manchester stamp collector, sent 20,000 stamps to W. F. Buskirk, of La Grange, Ill., several weeks ago, and has not heard of them since. Legal proceedings will be begun to recover them.

At least six members of the new-to-be seven-Judge Court of Appeals are already known. They are Bennett, of the First District; Reeves, of the Second; Lewis, of the Third; Pryor, of the Fourth; Toney, of the Fifth; and Hazelrigg of the Seventh.

THE "bankrupt" and "fire sale" fakes will soon be a thing of the past in Ohio. A law has been passed requiring the proprietors to file full particulars of fire or bankruptcy with the Secretary of State and deposit \$500 as a guarantee of fair dealing.

SOCIAL circles at Dover are stirred up over rumors that J. W. McKinley, who taught the school there last winter, is to marry Mrs. Mary S. Groves, widow of the late Jerry Groves. Mrs. Groves was in Maysville Monday and said there was no truth in the reports.

MR. JAMES N. KIRK and family moved Tuesday to "Edgewood," their lovely new home near this city. Mr. Kirk is one of Mason's wealthy farmers and highly esteemed citizens. His handsome and accomplished daughter, Miss Maude will be quite an addition to Maysville social circles.

CAPTAIN ROSSER, who was connected with the building of the Cincinnati Division of the C. and O., has been awarded a contract on the big canal from Lake Michigan to the Mississippi river by way of the Illinois river. It is being constructed by the city of Chicago and will cost \$30,000,000.

A REPORT from Paintsville says that the contract for building sixty miles of railroad from the terminus of the Ohio and Big Sandy Railroad, at Richardson, to the coal fields of Pike County, has been let to John R. Deer, a prominent contractor of Duluth, Minn., and that work on the road will begin May 1.

THE survivors of the ill-fated Sultana are making arrangements for their annual re-union the latter part of this month. The explosion of the Sultana above Memphis during the war is still fresh in the memory of all river men. It was the most disastrous steamboat event during the war, 1,800 soldiers returning to their homes after three years of warfare being killed.

REV. W. E. KELLER, who has been conducting at two-weeks meeting in the Presbyterian Church at Washington, left for his home at Bardstown yesterday. He is said to be a very powerful and eloquent preacher. He has many old comrades through this section, having been John Morgan's bugler. The boys say he gave forth no uncertain sound then, and it is certain he gives no uncertain sound now.

Stevenson-Rice Nuptials.

The marriage of Dr. R. H. Stevenson, of Fayette County, and Miss Dee Rice occurs at 1:30 o'clock this afternoon at the home of the bride near Helena. The couple will make their home at Russell Cave, Ky.

The bride is a daughter of Mr. and Mrs. J. H. Rice, and is a young lady of lovely character, well fitted to grace any home. The couple will carry with them the good wishes of the bride's many friends in Mason.

River News.

Superintendent J. F. Ellison, of the Pittsburg and Cincinnati Packet Lines, expects to handle a large excursion business during the coming three months. Already there is a decided increase in travel.

The new steamer City of Louisville will have to be taken out on the ways and have a steel bulkhead put in her full length, as she has been broken down twelve inches by the heavy weight of her doctor and machinery. She will also have wooden pitmans substituted for the present steel ones. It will take two months to make the alternation, says the Enquirer.

Fastest in the Country.

Ironton Republican: "Captain J. F. Morgan, of the C. and O. office, says that when the proposed new time card on the C. and O. goes into effect about May 13th, trains Nos. 2 and 3 will be the fastest trains in the country. Their running time will be sixty miles an hour, and they will make few stops. No. 2 east, which now reaches Russell at 12:27 p. m., will come at 4 p. m., but will be preceded by an accommodation train. All sleepers and coaches are being newly painted up in orange, the standard color."

THE COUNTRY'S MILITIA.

Important and Timely Publication by the United States Adjutant General.

WASHINGTON, April 25.—"The Organized Militia of the United States" is the title of a publication just issued by the military information division of the adjutant general's office. It begins with a table giving the official designations, authorized strength and organized strength of the troops of the states and territories, the percentage attending camp and the number of men liable to military duty. A summary of the information is given as to all the states from which reports were received. The recommendations of officers making reports were published together, followed by observations on the subject of practical field exercises, with a suggested schedule of such exercises, for the next regimental encampments. The book closes with a brief statement of the militia laws of the United States. The object in view has been to show in the most practical manner the organization and efficiency of the troops of the several states, the working of the different staff corps, the methods of concentrating troops in cases of emergency and the most advantageous points of concentration, the character and condition of arms, equipment and clothing, the instruction in drill, guard duty, field exercises, target practice and other practical military work, the theoretical instruction given, the personnel and discipline, the manner of supplying troops when in active service and other interesting things in connection with the state troops.

ONE BILL AND ONE SPEECH.

How Our Lawmakers at Washington Put in the Day.

WASHINGTON, April 25.—There was only a small number of visitors in the galleries of the senate when that body assembled.

On motion of Senator Pettigrew, the senate passed a bill to extend the time for building a bridge across the Missouri river at Yankton.

The morning hour having expired, the tariff bill was laid before the senate, and Mr. Mills of Texas was recognized and spoke in favor of the measure.

The close of Mr. Mills' speech was greeted by a hearty round of applause from the galleries and his Democratic colleagues crowded around him to extend their congratulations. It had been expected that the speech would be much longer. It consumed just two hours and 15 minutes. The Republicans, who expected that the Democrats would consume the entire day, were not prepared to go on. Accordingly, on motion of Mr. Harris, the senate went into executive session at 3:20 and, at 4:10, adjourned.

In the House.

WASHINGTON, April 25.—The entire day in the house was devoted to the consideration of the postoffice appropriation bill. It was finally passed just before adjournment.

TAKING SHAPE.

The Scheme to Pipe Indiana Natural Gas to Ohio.

KOKOMO, Ind., April 25.—The most gigantic natural gas scheme conceived in the Ohio-Indiana fields was launched at Lafayette Saturday, known as the Ohio-Indiana Pipe Line company. It incorporated under the laws of New Jersey, with a capital stock of \$1,000,000. The purpose of the corporation is to extend 10 and 12-inch pipe lines in every direction from the central gas producing territory, to supply with fuel Indiana and Ohio cities unfortunately outside the belt, having in view Dayton, Cincinnati, Hamilton and other Ohio cities.

E. H. Leland of New York is president of the company, James Murdock of Lafayette, general manager, and J. D. S. Nesly of Logansport, superintendent of construction. A large area of rich territory in day and other counties near the state line has been gobbled up, and the contract for drilling 75 wells was given to M. K. Clover of Kokomo. The pipe has also been purchased and pipe laying and well drilling will proceed at once.

Dynamite Explosion.

PITTSBURG, April 25.—Yesterday evening an explosion of dynamite, stored in a blacksmith shop on Mount Washington, instantly killed Andrew Hugo, aged 17, probably fatally injured Michael Gallagher and his son Michael, Jr., and hurt four others. The shop was completely destroyed and several houses in the vicinity somewhat damaged.

New Gold Strike.

ALBUQUERQUE, N. M., April 25.—There is great excitement over the placer gold fields in Hell canon, within 15 miles of this city, and Monday at least 100 locations were made by gold hunters from this city. A short time ago N. J. Hyde got out \$70 from a claim in one day. Since then several thousand dollars in gold have been panned out. Miners and prospectors are flocking to the newly discovered placer fields in goodly numbers daily.

May Soon Be Lynched.

OSGODD, Ind., April 25.—Henry Borgman was arrested yesterday for the murder of his sister. He is 35 and she 20. The coroner's investigation showed that Borgman has been sustaining illicit relations with his sister, and yesterday she revolted and he cut her throat and then plunged the knife into her abdomen. He was taken to the jail at Versailles, and it is rumored that a mob is gathering to lynch him. The Borgmans lived near this town.

Insurgents Concentrating.

BUENOS AYRES, April 25.—Advices received here from the city of Rio Grande do Sul show that all the Brazilian insurgents who are still in arms against the government are now concentrated at Bage, in the state of Rio Grande do Sul.

Coxey and His Tramps.

St. Louis Post-Dispatch: The Coxeyites are protectionists who want to get the benefit of protection without the intervention of a middleman.

Minneapolis Journal: A Pennsylvania farmer tried to get four men from Coxey's army to assist at the spring plowing. The army fired one volley with its mouth and fled in disorder.

Ohio State Journal: When Coxey gets to Washington and is in the business of asking Congress for various things let him demand a law that will bring moonlight all summer.

Kansas City Times: Senator Peffer desires to address the Coxey army on its arrival at Washington. After all other defensive schemes fail he will probably be allowed to do so.

Dr. Silas HANSBROUGH, aged eighty-nine, one of the oldest Masons in the State, died April 18th at the home of his daughter, Mrs. James Caldwell, near Sharpsburg. He was a member of the oldest Masonic lodge in Kentucky.

WHEN you start out to buy a watch, a clock, silverware or anything in the jewelry line you will make a mistake if you fail to call on Ballenger. His stock is the most complete to be found in this city, and goods are sold on a guarantee.

Pieny or Saloons in South Carolina.

COLUMBIA, April 25.—Carloads of whisky are being received here and saloons are opened as under the former regime. Beer is on tap at all places at 5 cents a glass. No effort has been made, so far, to stop the sale and proprietors are making no effort to conceal their business. Prohibitionists threaten to take a hard and have arrests made to test whether prohibition exists. So far, however, no warrants have been sworn out. It is understood that the supreme court is anxious to give a speedy hearing to test the case, if one can be brought before it.

Child Burned to Death.

FINDLAY, O., April 25.—The 18-months-old child of Professor A. C. Redding of Findlay college was fatally burned yesterday afternoon by its clothes catching fire while it was playing with matches. It was literally roasted alive.

Boiler Explosion.

HUNTINGTON, Ind., April 25.—The large boiler in Houser & Foust's tile mills, eight miles east of here, exploded yesterday, killing Arthur Anson, an employee, and seriously injuring both proprietors. Houser can not recover.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

It Removes Dandruff, Cleans the Scalp, Restores the Hair, Cures Eczema.

Foreign Marriages Not Approved.

PARIS, April 25.—The decree signed by President Carnot (forbidding members of the French diplomatic and consular service, under pain of dismissal, to marry without the permission of the foreign minister), was not provoked by the marriage of M. Jules Patenotre and Count Daunay to American ladies. It is explained at the foreign office that the marriages of representatives of the French government to foreigners are becoming the more frequent, and it may affect the position of those already having foreign wives, but it is not aimed at Americans.

Firemen Injured.

MEMPHIS, April 25.—J. W. Chase & Company's feedstore, 175 Main street, burned yesterday evening. Eleven firemen were in the building when the roof fell in and William Whalen, one of the number, was caught between the floors and pinioned. He was rescued by his comrades, after remaining in his perilous position two hours. One leg was broken, but otherwise he was not seriously hurt. Several of the other firemen were slightly injured. The loss from the fire was about \$50,000, partially covered by policies in local companies.

Wants to Be a Senator.

WACO, Tex., April 25.—Information, claimed of undoubted authority, has it that Judge Seth Shepard of the court of appeals, District of Columbia, will soon resign and enter the race for United States senator to succeed Senator Coke. Judge Shepard was appointed by Cleveland.
